OZONE GENERATED BY THE ESSENCES OF FLOWERS.—Prof. Mantegazza lately read a paper before the Institute of Lombardy on his experimental researches on the action of the essences of flowers in producing atmospheric exone, and the following is a summary of his conclusions: 1. The essences of mint, turpentine, cleves, lavender, bergamot, anise, jumper, hence, fennel, minegs, edisput, thyme, cherry, haurel, in centact with atmospheric exysen in light, develop a very large quantity of exone equal, if not superior, in amount to that produced by phespherus, by electricity, and by the decomposition of permanganiste of potash. 2. The exidation of these essences is one of the mest convenient means of producing exone, since even when in OZONE GENERATED BY THE ESSENCES OF

THE ARTS IN THE MIDDLE AGES, AND AT THE PERIOD OF THE RENAISSANCE. By Paul Lacroix, Cerator of the Imperial Library of the Arsenal Paris. Illustrated with aimeteen chromo-lithographic prints by F. Kellerhoven, and upward of four hundred Engravings on wood. I tol., imperial Evo. Cloth, gilt

aldes and back. \$50 pages. Price \$12.

This truly splendid volume passes in review all the arts, starting from the fourth century to the second half of the sixteenth-" architecture,

raising churches and abbeys, palaces and public memorials, strong fort-resses, and the ramparts of cities; scalpture, adorating and perfecting other aris, by its work on stone, marble, bronze, wood and ivory; painting, commencing with mosaics and enamels, contributing to the decorations of buildings jointly with stained glass and freecoes, embellishing and illuminating manuscripts before it arrived at its highest point of perfection, with the art of Giotto and Raphael, of Hemling and Albert Direct; engraving, on wood and metal, with which is associated the work of the noshlist and the goldsmith; and, after attempting to touch upon playing-earls and niello work, evoking that subline invention destined to change the face of the world-printing. Such are, in brief, some of the principal features of this splendid picture. One can imagine what at tainity, what rarity and richness of details it should contain."

THURSDAY, August 18-P. M. The news dispatches concerning the war have not been sufficiently clear to-day to exert a decided influence on the different markets. The financial advices, however, show that in the foreign markets the Prussians are believed to have been substantially vic-torious in the recent engagements, also that an early termination of the war is expected. In London 5-20s of '62 are reported to have closed at 874888, the highest price since the outbreak of the war, and consola at 915. As was expected in well-informed circles, and noticed in this column day before yesterday, the directors of the Bank of England, at their regular meeting this morning, reduced the minimum discount rate of the bank; the reduction was 1 per cent, and the rate is now 41 per cent.

In the open market, so great is the ease in money, discounts are readily obtained at 1 per cent under the bank The money market is steadily hardening, and to-day a

large number of loans were made toward the close of bank hours at 6 per cent, although the majority of the transactions early in the day were at 4 and 5 per cent. Balances, however, are still standing with the leading dealers in Government bonds at 3 per cent, and in no case have they paid over 4 per cent. Some of the large banks are sending currency to the West, but as yet the shipments are irregular and in the aggregate not large. The decrease of twelve millions in the currency balance of the Treasury yesterday is to-day explained by Associ-ated Press dispatches to the effect that twelve millions of mutilated notes were redeemed day before yesterday, and that yesterday an equal amount of new United States notes were issued, which again brought up the currency balance at the opening of business to-day to about \$10,000,000. The market for commercial paper is the last to respond to any change in the money market, and as yet there is no change in rates, which are as follows: Prime sixty days acceptances, 61 271 per cent; four months, 7 to 81 per cent, and six months, 71 to 10 per cent. First-class single name, sixty days, passes at 7 to 8, and four to six months at 8 to 12 per cent. Foreign bankers' sixty days paper passes at 7, and domestic bankers', three to four mouths, at 7 to 10 per cent. The gold market has been only moderately active and

is due to the advance in securities in the foreign markets, the war news, as above noticed, having had no apparent influence. The premium is supported by the continued large shipments of specie and speculative influences, aligh at the present time the latter are more evenly divided than for some time past. The principal sellers continue to be the German bankers, who have confidence in an early termination of the war. The highest sale of gold to-day was at 1175 and the lowest at 1165, the latter having been made late in the day, after the regular hours. The following shows the principal quotations today in the Gold Room:

In the gold loan market the rates have been flat, and for carrying, 1, 11, 2, 3, 4, 5, and 6 per cent. These latter rates reflect the increased activity in money as well as a reduction in the short interest.

The following shows the results of to-day's business at the Gold Exchange Bank: Gold balances, \$1,252,343; currency balances, \$1,484,336; gross clearings, \$47,953,000.

In the foreign exchange market the day has been a duil one. Rates remain as follows: Prime Bankers Sting Bills on London 100] & 100 | 100| # 100| | 100| # 100| | 100| # 100| | 100| # 100| | 100| # 100| | 5,15 #5,20 | 5,15 #5,20 | 5,15 #5,16| | 61| # 51| | 61| # 61| | 61| # 61| | 61| # 61| | 74| # 61| 110 2 110 5.00 25.11; 5.00 25.07; 5.00 25.07; 4112 415 37; 2 415 41; 2 43; 82; 3 83; 75 2 76

The specie shipment by the Palmyra is reported to-day

rices advanced, on the purchases of the German bankes, until after 12 o'clock, when it became known that offerings to the Treasury amounted to \$4,999,800. The amount advertised for was \$1,000,000, and for the Sinking Fund; for this million the Government paid 100.53 to 109.83. The highest offer to sell was at \$110.85. In the afternoon prices declined, and at the close the market was steady. The following shows the quotations at the dif

erent boards to-day: 110 #110 110 #110 110 #110 108 #100 112 #112 112 6112

The following were the closing street quotations as eported by Messrs. Fisk & Hatch;

The State bond market has been firm, but without feature. Georgia 7s sold at 915, and Alabama State 8s at 995 #2100. Railroad bonds were also dull on the general list. Central Pacifics continue in demand, and the price has advanced to \$73.0552. At the First Board sales were made at \$73. The following were the closing street quotions of the Union Pacific securities: First mortgages, 821 2822; Income bonds, 773 278; Land Grant bonds, 724 2 721, and Stock, 261 2 2 1. City Bank shares have been dull

The stock market has been fairly active to-day, and

prices have declined on the cotire list. The decline started in the morning by heavy sales of New-York Central and Hudson stock and certificates, which sales were said to be for the account of a prominent speculator who was a buyer a few days ago on information from Sara-toga. After these stocks, the principal dealings have been in Lake Shore, Wabash, Rock Island, St. Paul, Ohio and Mississippi, and Pacific Mail. Investment shares ifications, conditions, and further information, apply at the stern office at Chicago, II. St. Louis, Mo.; Detroit, Mich.; Philodophia, Pa.; Louisrille, Ky.; Jestersonville, Ind., and Lackawana and Western at 105§; Fort Wayne at 94§; Chicago and Alton at 112, and Morris and Essex at 59 Miscellaneous and express stocks have been dull. The following shows the range to-day of the principal stocks:

Coleman Benedict's closing quotations are as follows One Drick Sewer in Critiage-st., from Avenue D through Cottage-st., and Fifth-st. to Avenue W.

According to plans and specifications on the at the City Hall, where they war be seen.

All hids must be usade on printed forms which will be furnished by the City Surveyor.

The Council reserves the right to reject any and all hids if not antisfactions.

BUREAU OF STATISTICS.

Monthly Report No. 11, now nearly ready for distribution, contains, in addition to the summary heretofore published, a variety of interesting statistic among which are the following: Tables showing the Imports of Great Britain during the six months ender June 30, 1870, Agricultural Statistics of Great Britain, Prussia, and other European countries; Freliminary Statements showing our Imports, Exports, and Reexports for June, 1870, and the exports of Gold and Silver Coin and Bullion from New-York for the four weeks ended Aug. 20. Also, Table showing the comparative com and Bullion from seew lots for the comparative ended Aug. 20. Also, Table showing the comparative Area, Population, Public Debt, Revenue, Expenditures, Raliroads, Telegraphs, Merchant Marine, Army, &c., of the United States and of the several European countries; a corrected statement showing the estimated reduction of Taxes under the new Tariff Act, and the following Estimated Annual Reduction of the Internal Revenue by the Act approved July 14, 1870.

Provisions of the law of Receipts in fiscal year 1870. free of excitement. The range of the premium has been | m | per cent lower than yesterday's average price, which \$10,674,000 \$1,674,000 6,784,000 6,784,000

> BANKING AND FINANCIAL. HARVEY FISK. A. S. HATCH.

OFFICE OF FISE & HATCH, No. 5 Nassau-st., (
NEW-YOKK, Aug. 15, 1870. THE CENTRAL PACIFIC R. R. 6 per cent GOLD-Bonds, having 26 years to run, are to-day selling at 86.25. At the rate of 88.10 they yield 7 per cent in gold; interest and principal payable in gold coin, in New-Yor

They are secured by a First Mortgage on propert worth four times their total issue; a road having princely revenue-nearly \$3,000,000 for the first si months of this year, and \$727,800 for July, being an increase of \$800,000 over the large revenues of the same period last year, while the annual interest payments are \$1,600,000. They are as good and as safe as Government Bonds. Holders of the latter would do well to capitalize the difference while the Centrals are so low-occasioned by the return of these Bonds from Germany, on account of the terrible war now raging in Europe. The amounts now coming are small, and are being steadily absorbed by heavy

capitalists here. THE U. S. CURBENCY SIXES-principal and interes payable in lawful money-with an average of years to run, at 113 flat, pay only 5 per cent currenc TEN-FORTIES, with 34 years to run (it is not proable this issue will be called in till maturity, as portion of the Bonds authorized by the Fundir bill bear 5 per cent), at 1041, about the present pri less coupon due Sept. 1, pay 41 per cent gold.

Sixes of 1881, having 11 years to run, at the curre rate, 114.50, pay only 41 per cent gold. FIVE-TWENTIES, assuming that they will not called in for 5 years, at 109 pay but 4 per cent go.

per annum. This opportunity to realize so handsome an additito their capital, and at the same time a large incres in the average annual interest yield, by an exchai into Central Pacific Bonds, may not occur aga We expect, as the demand for them is large, the they cannot be had at the present price for a y length of time. Fisk & HATCH N. B.—We allow Interest on Deposits, make Col-
